Revised slide 4:

The Animas River Stakeholders Group (ARSG) mission is to:

- Improve water quality impacts resulting from historic mining
- Operates through consensus building
- Usually meets on the 4th Tuesday of the month in Silverton or Durango
- More information on the group's website:
<http://www.animasriverstakeholdersgroup.org/>

Other Groups Active in addressing water quality issues in the Animas River

- Animas Watershed Partnership <http://animaswatershedpartnership.org/>
- San Juan Citizen's Alliance <http://sanjuancitizens.org/>

Johanna,

I believe this request is headed your way. I already produced a basic map and provided it to Sona and others yesterday (UpperAnimas_MineFeatures.jpg).

Subject: materials for navajo meetings next week

David and Bill,

Thanks so much for helping out with slides for the two Navajo meetings next week! The agenda for both are attached.

I talked about two slides with Sandra and Bert yesterday (first two listed below) that were about the Upper Animas Watershed, and Enrique, Clancy and I talked with David yesterday about two additional slides more specific to GKM (numbers 3 and 4 below). It would be so wonderful if you could give us these four by COB today and we'll include them in the presentations for both meetings:

1. Graphic of mines in Upper Animas Watershed (I saw something on this late yesterday and will respond before noon)
2. Slide summarizing mine waste clean-up activities that have happened in the Upper Animas in last few decades
3. Slide summarizing what's happening now to control impacts from GKM
4. Slide summarizing info about the Animas River Stakeholders group, including any specifics about future meetings that would allow Tribes to engage if they chose. (David thought including this would be a good idea— mentioning any other opportunities for tribes to engage with what's happening with upstream controls would also be great).

Really, really appreciate all the help!

s.
